Office of the Secretary

I cannot tell you how disappointed I am on hearing that you will allow these few greedy, powerful men to control so much of the radio, television and newspaper businesses. I have met your father and I cannot believe he is proud of what you are doing. I've written Mr. Martin and told him to be strong and fight against this. I have spent 30 years in the radio and television business and have seen how your committee is systematically destroying what used to be called competition. The airwaves belong to the American people...not Rupert Murdoch. It seems that you have already made up your mind and I am sorry for you. I told Mr. Martin about JFK's book "Profiles in Courage" and I believe he will do what is right for the American people. Not so with you. You will never be in a book like that because you are not protecting the American people, you are selling them out. How do you face yourself in the mirror each morning?
